### WORK EXPERIENCE

#### Student Web Developer

AgBiz Logic // January 2016 – June 2016

Developed the full-stack of a web application using the Django Python framework, AngularJS, and Karma

Collaborated with a small, startup-style development team to design new features

#### Co-op Applications Engineer

Oracle Primavera // June 2015 – December 2015

Created engine that translates CSS to iOS view styles

Developed UI of an iOS application

Updated code to incorporate new iOS 9 functionality

Automated NodeJS tests to bridge with Java API

#### Application Developer Intern

Emma, Inc. // March 2014 – September 2014

Optimized and debugged Django web application that imports spreadsheets of data into a PostGres database

Increased application speed (by 95%) and capacity (previously 36,000, currently 1,000,000)

Collaborated with software development teams

#### Teaching Assistant

Oregon State University // January 2015 – June 2015  
& September 2016 – June 2017

Provided help for students in introductory CS courses through Office hours, Recitations, and Labs

Brainstormed ideas on improving the course

#### IT/Operations Intern

Cequint, Inc. // June 2013 – September 2013  
& June 2012 – September 2012

Provided desktop support for a 200 person company

Performed maintenance on Unix-based systems

Provided technical customer support
